Subject: RE: Portland Harbor Senior Managers/Proposed Plan Release

I'm certain we can find something on May 31st or June 1st that would work. Just to make sure, I was hoping to have a conversation prior to the Proposed Plan being released with this group. I assume that's what you are anticipating too, so these dates will work for that purpose. Let me know if that's not the case. Thanks Cami!

Jessica—that is a good question. I don't know when next week we will be firming up our date—so let's set something up for Tuesday, May 31 or June 1—does that work for you all?

Subject: Portland Harbor Senior Managers/Proposed Plan Release

Hi Cami:

I understand that EPA plans to provide more information about the plan to issue the Proposed Plan next week. I was wondering if you would like us to set up a Senior Managers' call for next week to further discuss this and EPA's intended outreach to the community, media communications, etc. In the past, it has been useful for both the LWG and EPA to have these meetings in advance of major milestones.

Please let me know how we can be helpful in coordinating.

Jessica

Subject: quick update on Portland Harbor schedule

Greetings everyone—I know you are all anxious to know what our schedule for moving forward is so I wanted to give you a quick update. Right now, we expect to announce the delivery data for the Feasibility Study and Proposed Plan by the week of May 23rd. Data synthesis and electronic document preparation have continued to pose incredible challenges, but we are

working through them and we do look forward to delivering both documents shortly after our announcement.

Thank you for your patience,

Cami Grandinetti
